7:00 p.m. –9:00 p.m.

You are invited to a Public Information Meeting

Learn about the boundary
options for
The Unity Area

The Montgomery County Board of Education has authorized a boundary study to review the school assignments for the Unity area from the Gaithersburg Cluster to the Sherwood Cluster. The scope of this boundary study is limited. The area that will be considered for change includes areas east of, but not including, Howard Chapel Road from the county border in the north to Hawlings River Regional Park (also known as Rachel Carson Conservation Park) in the south, and east to the boundary line between the Gaithersburg and Sherwood clusters. This includes only Unity area students from Laytonsville Elementary School, Gaithersburg Middle School, and Gaithersburg High School. The potential new assignments would be Greenwood Elementary School, Rosa M. Parks Middle School, and Sherwood High School.

MCPS staff will present the boundary options developed during the boundary advisory committee process and answer questions.

Additional Information is located at the following website:
