

# DOWNCOUNTY CONSORTIUM

## CONSORTIUM PLANNING ISSUES

The Downcounty Consortium provides a program delivery model for five high schools in the Silver Spring and Wheaton areas. Students living in this area of the county are able to choose which school they wish to attend from five high schools, based on different academy programs offered at each high schools. The Downcounty Consortium choice programs are offered at Montgomery Blair, Albert Einstein, John F. Kennedy, Northwood, and Wheaton high schools. Choice patterns are monitored for the impact on projected enrollment and facility utilization.

A high school base area map and middle school articulation diagram are included in Appendix Y for the five consortium high schools. Students that reside in a base area are guaranteed to attend the high school located serving that base area, if it is their first choice.

The Middle Schools Magnet Consortium (MSMC) includes three middle schools—Argyle, A. Mario Loiederman, and Parkland middle schools. The programs at these schools are open to all middle school students in the county.

**Planning Issue:** The Downcounty Consortium includes three recent land use plans that will add a large number of multi-family housing units in the future. The Wheaton CBD and Vicinity Sector Plan, adopted in 2012, provides for up to 7,060 mostly multi-family residential units. The majority of these housing units require the redevelopment of the Westfield Wheaton Mall. The 2013 adopted Glenmont Sector Plan provides for up to 5,800 mostly multi-family residential units. This plan requires the redevelopment of existing land uses, including the Glenmont Shopping Center, to achieve build-out density. The 2013 adopted Long Branch Sector Plan provides for up to 3,200 mostly multi-family residential units. This plan requires the redevelopment of existing land uses and funding for the Purple Line to achieve build-out density. It is anticipated that the three sector plans will take 20 to 30 years to build-out, and the pace of construction will be market driven. A future elementary school site is included in the Glenmont Sector Plan.

**Planning Issue:** There has been significant enrollment growth in the Downcounty Consortium since 2007. This growth began at the elementary schools where many schools no longer have the space to accommodate the projected enrollment and has now approached the secondary school levels. Two elementary school capacity studies were conducted during the 2012–2013 and 2014–2015 school years, to address the overutilization of elementary schools in the midsection and lower portion of the Downcounty Consortium, respectively. The outcomes from these studies are described in the schools section below.

At the middle school level, facility planning funds were approved for feasibility studies to determine

the scope, cost, and feasibility of classroom additions at the following schools: Col. E. Brooke Lee, A. Mario Loiederman, Parkland, Silver Spring International, and Takoma Park middle schools. The outcomes from these studies are described in the schools section below.

At the high school level, enrollment is projected to exceed capacity by the end of the six-year planning period at all five high schools. A comprehensive capacity study is underway for the Downcounty Consortium high schools to study the possibility of adding capacity to the Downcounty Consortium through classroom additions at Montgomery Blair, Albert Einstein, John F. Kennedy, and/or Northwood high schools. As part of the revitalization/expansion project at Wheaton High School, the building shell of the master-planned addition is being constructed as part of the ongoing project. Constructing the building shell during ongoing construction will enable classrooms to be built-out in the future when enrollment pressures require additional capacity.

In addition to these capacity studies, the superintendent of schools has recommended a roundtable study for the Downcounty Consortium high schools along with Walter Johnson High School to explore the following:

- Reopening the former Woodward High School to address the space deficits at Montgomery Blair, Albert Einstein, Walter Johnson, John F. Kennedy, and Northwood high schools; and in addition
- Exploring the possibility to use commercial properties to address space deficits at these high schools as well as countywide by offering alternative programmatic and career technology education options to high school students.

The superintendent’s recommendation is included in Supplement B to the *Superintendent’s Recommended FY 2018 Capital Budget and Amendments to the FY 2017–2022 CIP* and can be found on the MCPS website at the following link: [http://gis.mcpsmd.org/cipmasterpdfs/CIPFY18\\_SupplementB\\_WJClusterSchools.pdf](http://gis.mcpsmd.org/cipmasterpdfs/CIPFY18_SupplementB_WJClusterSchools.pdf)

## SCHOOLS

### Montgomery Blair High School

**Planning Study:** There are urgent space needs in the Downcounty Consortium high schools. To address these space needs, a capacity study is underway to study the possibility of adding capacity through classroom additions at Montgomery Blair, Albert Einstein, John F. Kennedy, and/or Northwood high schools. As part of the revitalization/expansion project at Wheaton High School, the build out of the master planned classroom shell is approved with a completion date of August 2018. However, additions may not be sufficient to address the space needs at these high schools. Therefore, a roundtable discussion group was recommended for the Downcounty Consortium high schools along with Walter Johnson High School to study the following:

- Reopen the former Woodward High School to address the space deficits at the Montgomery Blair, Albert Einstein, Walter Johnson, John F. Kennedy, and Northwood high schools; and in addition
- Explore the possibility, and develop a potential model approach, to address space deficits at these high schools as well as others countywide, by offering alternative programmatic, career technology education, or other voluntary educational options for high school students through use of non-traditional facilities, including commercial space.

A recommendation to address the space deficits at these schools will be made by the superintendent of schools as part of the FY 2019–2024 CIP. For additional information on the recommendation for the roundtable discussion group please see Supplement B to the *Superintendent’s Recommended FY 2018 Capital Budget and Amendments to the FY 2017–2022 CIP* located on the MCPS website: at the following link: [http://gis.mcpsmd.org/cipmasterpdfs/CIPFY18\\_SupplementB\\_WJClusterSchools.pdf](http://gis.mcpsmd.org/cipmasterpdfs/CIPFY18_SupplementB_WJClusterSchools.pdf)

### Albert Einstein High School

**Planning Study:** There are urgent space needs in the Downcounty Consortium high schools. To address these space needs, a capacity study is underway to study the possibility of adding capacity through classroom additions at Montgomery Blair, Albert Einstein, John F. Kennedy, and/or Northwood high schools. As part of the revitalization/expansion project at Wheaton High School, the build out of the master planned classroom shell is approved with a completion date of August 2018. However, additions may not be sufficient to address the space needs at these high schools. Therefore, a roundtable discussion group was recommended for the Downcounty Consortium high schools along with Walter Johnson High School to study the following:

- Reopen the former Woodward High School to address the space deficits at the Montgomery Blair, Albert Einstein, Walter Johnson, John F. Kennedy, and Northwood high schools; and in addition
- Explore the possibility, and develop a potential model approach, to address space deficits at these high schools as well as others countywide, by offering alternative programmatic, career technology education, or other voluntary educational options for high school students through use of non-traditional facilities, including commercial space.

A recommendation to address the space deficits at these schools will be made by the superintendent of schools as part of the FY 2019–2024 CIP. For additional information on the recommendation for the roundtable discussion group please see Supplement B to the *Superintendent’s Recommended FY 2018 Capital Budget and Amendments to the FY 2017–2022 CIP* located on the MCPS website: at the following link: [http://gis.mcpsmd.org/cipmasterpdfs/CIPFY18\\_SupplementB\\_WJClusterSchools.pdf](http://gis.mcpsmd.org/cipmasterpdfs/CIPFY18_SupplementB_WJClusterSchools.pdf)

## Downcounty Consortium Articulation

Elementary schools articulating to middle schools within a consortium of high schools

### Downcounty Consortium High Schools

Montgomery Blair HS  
 Albert Einstein HS  
 John F. Kennedy HS  
 Northwood HS  
 Wheaton HS

\* Denotes schools with split articulation, i.e., some students feed into one middle school, while other students feed into another middle school.

\*\*Students living in the following elementary school service areas will be given the choice of one of these three middle schools in the Middle School Magnet Consortium (MSMC)—Bel Pre, Brookhaven, Georgian Forest, Harmony Hills, Sargent Shriver, Strathmore, Viers Mill, Weller Road, and Wheaton Woods elementary schools.

### John F. Kennedy High School

**Planning Study:** There are urgent space needs in the Down-county Consortium high schools. To address these space needs, a capacity study is underway to study the possibility of adding capacity through classroom additions at Montgomery Blair, Albert Einstein, John F. Kennedy, and/or Northwood high schools. As part of the revitalization/expansion project at Wheaton High School, the build out of the master planned classroom shell is approved with a completion date of August 2018. However, additions may not be sufficient to address the space needs at these high schools. Therefore, a roundtable discussion group was recommended for the Downcounty Consortium high schools along with Walter Johnson High School to study the following:

- Reopen the former Woodward High School to address the space deficits at the Montgomery Blair, Albert Einstein, Walter Johnson, John F. Kennedy, and Northwood high schools; and in addition
- Explore the possibility, and develop a potential model approach, to address space deficits at these high schools as well as others countywide, by offering alternative programmatic, career technology education, or other voluntary educational options for high school students through use of non-traditional facilities, including commercial space.

A recommendation to address the space deficits at these schools will be made by the superintendent of schools as part of the FY 2019–2024 CIP. For additional information on the recommendation for the roundtable discussion group please see Supplement B to the *Superintendent's Recommended FY 2018 Capital Budget and Amendments to the FY 2017–2022 CIP* located on the MCPS website: at the following link: [http://gis.mcpsmd.org/cipmasterpdfs/CIPFY18\\_SupplementB\\_WJClusterSchools.pdf](http://gis.mcpsmd.org/cipmasterpdfs/CIPFY18_SupplementB_WJClusterSchools.pdf)

**Capital Project:** An FY 2016 appropriation was approved in the Department of Health and Human Services (DHHS) Capital Budget for a feasibility study of a School-based Wellness Center at John F. Kennedy High School. This study is underway as part of the comprehensive capacity study. A completion date for this project will be determined in a future DHHS CIP request.

### Northwood High School

**Planning Study:** There are urgent space needs in the Down-county Consortium high schools. To address these space needs, a capacity study is underway to study the possibility of adding capacity through classroom additions at Montgomery Blair, Albert Einstein, John F. Kennedy, and/or Northwood high schools. As part of the revitalization/expansion project at Wheaton High School, the build out of the master planned-classroom shell is approved with a completion date of August 2018. However, additions may not be sufficient to address the space needs at these high schools. Therefore, a roundtable discussion group was recommended for the Downcounty Consortium high schools along with Walter Johnson High School to study the following:

- Reopen the former Woodward High School to address the space deficits at the Montgomery Blair, Albert Einstein, Walter Johnson, John F. Kennedy, and Northwood high schools; and in addition
- Explore the possibility, and develop a potential model approach, to address space deficits at these high schools as well as others countywide, by offering alternative programmatic, career technology education, or other voluntary educational options for high school students through use of non-traditional facilities, including commercial space.

A recommendation to address the space deficits at these schools will be made by the superintendent of schools as part of the FY 2019–2024 CIP. For additional information on the recommendation for the roundtable discussion group please see Supplement B to the *Superintendent's Recommended FY 2018 Capital Budget and Amendments to the FY 2017–2022 CIP* located on the MCPS website: at the following link: [http://gis.mcpsmd.org/cipmasterpdfs/CIPFY18\\_SupplementB\\_WJClusterSchools.pdf](http://gis.mcpsmd.org/cipmasterpdfs/CIPFY18_SupplementB_WJClusterSchools.pdf)

### Wheaton High School

**Planning Study:** Wheaton High School and Thomas Edison High School of Technology (TEHST) are located on the same site and shared one facility. Two major planning studies were conducted to prepare for the revitalization/expansion projects of these schools. During the fall and winter 2010–2011, a roundtable discussion group, with broad stakeholder involvement, met to explore various approaches for the future relationship between the two schools. Following the Roundtable review, the Board of Education took action on March 28, 2011, to keep the two schools separate with distinct identities and directed staff to conduct a feasibility study to review two options—a one-building option and a two-building option. At the conclusion of the feasibility study on September 13, 2011, the Board of Education adopted a two-building option for the revitalization/expansion projects of Wheaton High School and Thomas Edison High School of Technology.

**Capital Project:** An FY 2014 appropriation for construction funds was approved to construct the replacement facility for Wheaton High School. The Wheaton High School facility was completed in January 2016 while the Thomas Edison High School of Technology facility is scheduled for completion in August 2018 and restoration of the site is scheduled for completion in August 2019. In order to address the projected enrollment at Wheaton High School, an FY 2017 appropriation was approved to build out of the master planned classroom shell with a completion date of August 2018.

**Planning Study:** There are urgent space needs in the Down-county Consortium high schools. To address these space needs, a capacity study is underway to study the possibility of adding capacity through classroom additions at Montgomery Blair, Albert Einstein, John F. Kennedy, and/or Northwood high schools. As part of the revitalization/expansion project at Wheaton High School, the build out of the master planned

classroom shell is approved with a completion date of August 2018. However, additions may not be sufficient to address the space needs at these high schools. Therefore, a roundtable discussion group was recommended for the Downcounty Consortium high schools along with Walter Johnson High School to study the following:

- Reopen the former Woodward High School to address the space deficits at the Montgomery Blair, Albert Einstein, Walter Johnson, John F. Kennedy, and Northwood high schools; and in addition
- Explore the possibility, and develop a potential model approach, to address space deficits at these high schools as well as others countywide, by offering alternative programmatic, career technology education, or other voluntary educational options for high school students through use of non-traditional facilities, including commercial space.

A recommendation to address the space deficits at these schools will be made by the superintendent of schools as part of the FY 2019–2024 CIP. For additional information on the recommendation for the roundtable discussion group please see Supplement B to the *Superintendent's Recommended FY 2018 Capital Budget and Amendments to the FY 2017–2022 CIP* located on the MCPS website: at the following link: [http://gis.mcpsmd.org/cipmasterpdfs/CIPFY18\\_SupplementB\\_WJClusterSchools.pdf](http://gis.mcpsmd.org/cipmasterpdfs/CIPFY18_SupplementB_WJClusterSchools.pdf)

### Eastern Middle School

**Capital Project:** A revitalization/expansion project is scheduled for this school with a completion date of August 2022. An FY 2018 appropriation is recommended for planning to begin the architectural design for the project. In order for this project to be completed on this schedule, county and state funding must be provided at the levels recommended in this CIP.

### Col. E. Brooke Lee Middle School

**Capital Project:** Projections indicate enrollment at Col. E. Brooke Lee Middle School will exceed capacity by 150 seats or more by the end of the six-year period. Although the Board of Education requested an FY 2018 appropriation for planning funds to begin the architectural design for a classroom addition with a completion date for August 2020, the adopted FY 2017–2022 CIP reflects a one year delay for the project to August 2021, with FY 2019 expenditures for planning. Relocatable classrooms will be utilized until additional capacity can be added. In order for this project to be completed on this schedule, county and state funding must be provided at the levels recommended in this CIP.

**Capital Project:** A revitalization/expansion project is scheduled for this school with a completion date of August 2024. An FY 2018 appropriation is recommended for facility planning funds to conduct a feasibility study to determine the scope and cost of this project. In order for this project to be completed on this schedule, county and state funding must be provided at the levels recommended in this CIP.

### A. Mario Loiederman Middle School

**Capital Project:** Because projections previously indicated enrollment at A. Mario Loiederman Middle School would exceed capacity by 150 seats or more by the end of the six-year planning period, an FY 2014 appropriation was approved for facility planning to determine the feasibility, scope, and cost for a classroom addition. However, the current enrollment projections indicate an excess capacity of 36 seats by the end of the six-year planning period. If the enrollment trends change in the future, a date for the addition will be considered in a future CIP.

### Parkland Middle School

**Capital Project:** Because projections previously indicated enrollment at Parkland Middle School would exceed capacity by 150 seats or more by the end of the six-year period, an FY 2015 appropriation was approved for facility planning to determine the feasibility, scope, and cost for a classroom addition. Given that the space deficit did not meet the minimum threshold of 150 seats or more for consideration of an addition project last year, no funds were approved as part of adopted FY 2017–2022 CIP for a classroom addition. The current enrollment projections indicate that the enrollment will exceed capacity by 197 seats by the end of the six-year planning period. If the enrollment continues to exceed capacity by more than 150 seats, a date for the addition will be considered in a future CIP. Relocatable classrooms will be utilized to accommodate the enrollment.

### Silver Spring International Middle School

**Capital Project:** Because projections previously indicated enrollment at Silver Spring International Middle School would exceed capacity by 150 seats or more by the end of the six-year period, an FY 2015 appropriation was completed for facility planning to determine the feasibility, scope, and cost for a classroom addition. However, given that the space deficit in 2015–2016 did not meet the minimum threshold of 150 seats or more for consideration of an addition project, no funds were approved in the adopted FY 2017–2022 CIP for a classroom addition. If the enrollment trends change in the future, a date for the addition will be considered in a future CIP.

### Takoma Park Middle School

**Capital Project:** An addition project is approved for this school with a completion date of August 2020. Relocatable classrooms will be utilized until additional capacity can be added. In order for this project to be completed on this schedule, county and state funding must be provided at the levels recommended in this CIP.

### East Silver Spring Elementary School

**Planning Study:** A comprehensive capacity study to address overutilization at several elementary schools in the lower section of the Downcounty Consortium was conducted during the 2014–2015 school year. This capacity study included the

following schools: East Silver Spring, Forest Knolls, Highland View, Montgomery Knolls, New Hampshire Estates, Oak View, Takoma Park, Pine Crest, Piney Branch, Rolling Terrace, Sligo Creek, and Woodlin elementary schools.

**Capital Project:** As a result of the capacity study, the Board of Education requested an addition project at East Silver Spring Elementary School to relieve overutilization at Rolling Terrace Elementary School with a completion date of August 2020. However, the adopted FY 2017–2022 CIP reflects a two year delay with a completion date of August 2022. FY 2019 expenditures are programmed for the project. In order for these projects to be completed on schedule, county and state funding must be provided at the levels recommended in this CIP.

### Forest Knolls Elementary School

**Planning Study:** A comprehensive capacity study to address overutilization at several elementary schools in the lower section of the Downcounty Consortium was conducted during the 2014–2015 school year. This capacity study included the following schools: East Silver Spring, Forest Knolls, Highland View, Montgomery Knolls, New Hampshire Estates, Oak View, Takoma Park, Pine Crest, Piney Branch, Rolling Terrace, Sligo Creek, and Woodlin elementary schools.

**Capital Project:** As a result of the capacity study, addition projects are approved at Montgomery Knolls and Pine Crest elementary schools to relieve overutilization at Forest Knolls Elementary School. The scheduled completion date for these projects are August 2020. In order for these projects to be completed on schedule, county and state funding must be provided at the levels recommended in this CIP.

### Highland Elementary School

**Planning Study:** A boundary study is recommended to explore the possibility to reassign the area of Highland Elementary School currently assigned to Sligo Middle School to Newport Middle School. Representatives from Highland Elementary School and Newport Mill and Sligo middle schools will participate on the boundary advisory committee. The boundary study will occur in winter 2016 with Board of Education action in winter 2017.

### Highland View Elementary School

**Planning Study:** A comprehensive capacity study to address overutilization at several elementary schools in the lower section of the Downcounty Consortium was conducted during the 2014–2015 school year. This capacity study included the following schools: East Silver Spring, Forest Knolls, Highland View, Montgomery Knolls, New Hampshire Estates, Oak View, Takoma Park, Pine Crest, Piney Branch, Rolling Terrace, Sligo Creek, and Woodlin elementary schools. Although 2015–2016 enrollment projections indicated that enrollment at Highland View Elementary School would exceed capacity by 112 seats by the end of the six-year planning period, due to fiscal constraints in the county a space deficit of 125

seats was identified to fund an elementary school addition project in the FY 2017–2022 CIP. Therefore, no funds were recommended in this CIP for a classroom addition. A date for the addition will be considered in a future CIP. Relocatable classrooms will be utilized to accommodate the enrollment.

### Kemp Mill Elementary School

**Capital Project:** A comprehensive capacity study was conducted during the 2012–2013 school year to address overutilization at several elementary schools in the midsection of the Downcounty Consortium. The following schools were included in the scope of the study: Arcola, Brookhaven, Forest Knolls, Georgian Forest, Glen Haven, Glenallan, Harmony Hills, Highland, Kemp Mill, Sargent Shriver, Weller Road, and Wheaton Woods elementary schools. Previous enrollment projections indicated that several schools in the midsection of the Downcounty Consortium would be overutilized by the end of the six-year planning period. These schools included Arcola, Glen Haven, Harmony Hills, Highland, Kemp Mill, and Sargent Shriver elementary schools.

In the spring 2015, the ratios used to calculate the program capacities for class-size reduction schools were revised in MCPS regulation FAA-RA Long-range Educational Facilities Planning. The ratios went from 15:1 for kindergarten classrooms and 17:1 for Grades 1–2 classrooms to 18:1 for Grades K–2 classrooms. This change raised all of the capacities of class-size reduction schools, which included all of the schools in this capacity study. Furthermore, the threshold used for consideration of an elementary school classroom addition project is a space deficit of 92 seats or more at the end of the six-year planning period. Although the space deficit for Kemp Mill Elementary School is greater than 92 seats, it was less than the 125 seat deficit identified for funding of a classroom addition in the adopted FY 2017–2022 CIP. Enrollment will be monitored at Kemp Mill Elementary School to determine if an addition project can be included in a future CIP.

### Montgomery Knolls Elementary School

**Planning Study:** A comprehensive capacity study to address overutilization at several elementary schools in the lower section of the Downcounty Consortium was conducted during the 2014–2015 school year. This capacity study included the following schools: East Silver Spring, Forest Knolls, Highland View, Montgomery Knolls, New Hampshire Estates, Oak View, Takoma Park, Pine Crest, Piney Branch, Rolling Terrace, Sligo Creek, and Woodlin elementary schools.

**Capital Project:** As a result of the capacity study, an addition project is approved at Montgomery Knolls Elementary School to relieve overutilization at Forest Knolls Elementary School with a completion date of August 2020. In order for these projects to be completed on schedule, county and state funding must be provided at the levels recommended in this CIP.

### **Pine Crest Elementary School**

**Planning Study:** A comprehensive capacity study to address overutilization at several elementary schools in the lower section of the Downcounty Consortium was conducted during the 2014–2015 school year. This capacity study included the following schools: East Silver Spring, Forest Knolls, Highland View, Montgomery Knolls, New Hampshire Estates, Oak View, Takoma Park, Pine Crest, Piney Branch, Rolling Terrace, Sligo Creek, and Woodlin elementary schools.

**Capital Project:** As a result of the capacity study, an addition project is approved at Pine Crest Elementary School to relieve overutilization at Forest Knolls and Pine Crest elementary schools with a completion date of August 2020. In order for these projects to be completed on schedule, county and state funding must be provided at the levels recommended in this CIP.

### **Piney Branch Elementary School**

**Planning Study:** A comprehensive capacity study to address overutilization at several elementary schools in the lower section of the Downcounty Consortium was conducted during the 2014–2015 school year. This capacity study included the following schools: East Silver Spring, Forest Knolls, Highland View, Montgomery Knolls, New Hampshire Estates, Oak View, Takoma Park, Pine Crest, Piney Branch, Rolling Terrace, Sligo Creek, and Woodlin elementary schools.

**Capital Project:** Piney Branch Elementary School is located on the smallest site in the county at 1.9 acres and there is little to no room for relocatable classrooms to accommodate overutilization at the school. Because previous enrollment projections indicated a space deficit of 92 seats or more, an addition project was approved at Piney Branch Elementary School with a completion date of August 2021. An FY 2017 appropriation for facility planning was approved to conduct a feasibility study to determine the feasibility, scope and cost of the project. Planning and construction funds also have been programmed for this addition. FY 2019 expenditures are programmed for planning. Current enrollment projections, however, indicate a space deficit of less than 92 seats. Enrollment trends will be monitored for this school and the status of the addition will be reconsidered as part of the FY 2019–2024 CIP.

### **Rolling Terrace Elementary School**

**Planning Study:** A comprehensive capacity study to address overutilization at several elementary schools in the lower section of the Downcounty Consortium was conducted during the 2014–2015 school year. This capacity study included the following schools: East Silver Spring, Forest Knolls, Highland View, Montgomery Knolls, New Hampshire Estates, Oak View, Takoma Park, Pine Crest, Piney Branch, Rolling Terrace, Sligo Creek, and Woodlin elementary schools.

**Capital Project:** As a result of the capacity study, the Board of Education requested an addition project at East Silver Spring Elementary School to relieve overutilization at Rolling Terrace Elementary School with a completion date of August 2020. However, the adopted FY 2017–2022 CIP reflects a two year delay with a completion date of August 2022. FY 2019 expenditures are programmed for the project. In order for these projects to be completed on schedule, county and state funding must be provided at the levels recommended in this CIP.

### **Wheaton Woods Elementary School**

**Capital Project:** A revitalization/expansion project is scheduled for this school with a completion date of August 2017. Funding was approved in the Department of Health and Human Services Capital Budget to construct a child care classroom and Linkages to Learning suite as part of the project.

### **Woodlin Elementary School**

**Planning Study:** A comprehensive capacity study to address overutilization at several elementary schools in the lower section of the Downcounty Consortium was conducted during the 2014–2015 school year. This capacity study included the following schools: East Silver Spring, Forest Knolls, Highland View, Montgomery Knolls, New Hampshire Estates, Oak View, Takoma Park, Pine Crest, Piney Branch, Rolling Terrace, Sligo Creek, and Woodlin elementary schools.

**Capital Project:** As a result of the capacity study, an addition project was approved at Woodlin Elementary School to relieve the overutilization at the school. Although the Board of Education requested a completion date of August 2020, the adopted FY 2017–2022 CIP reflects a two year delay with a completion date of August 2022. FY 2019 expenditures are programmed for this project. Relocatable classrooms will be utilized until additional capacity can be added. In order for this project to remain on schedule, county and state funding must be provided at the levels recommended in this CIP.

## **CAPITAL PROJECTS**

<b>School</b>	<b>Project</b>	<b>Project Status*</b>	<b>Date of Completion</b>
John F. Kennedy HS	School-based Wellness Center	Proposed	TBD
Wheaton HS	Revitalization/expansion	Approved	Jan. 2016 Aug. 2019, site
Eastern MS	Revitalization/expansion	Recommended	Aug. 2022
Col. E. Brooke Lee MS	Classroom addition	Approved	Aug. 2021
	Revitalization/expansion	Recommended	Aug. 2024
Takoma Park MS	Classroom addition	Approved	Aug. 2020
East Silver Spring ES	Classroom addition	Approved	Aug. 2022
Montgomery Knolls ES	Classroom addition	Approved	Aug. 2020
Pine Crest ES	Classroom addition	Approved	Aug. 2020
Piney Branch ES	Classroom addition	Approved	Aug. 2021
Wheaton Woods ES	Revitalization/expansion	Approved	Aug. 2017
Woodlin ES	Classroom addition	Approved	Aug. 2022

\*“Approved”—Project has an FY 2017 appropriation approved in the FY 2017–2022 CIP.

\*“Deferred”—Funds have been deferred for a future CIP.

\*“Programmed”—Project has expenditures programmed in a future year of the CIP for planning and/or construction funds.

\*“Proposed”—Project has facility planning funds approved in FY 2017 or recommended in FY 2018 for a feasibility study.

\*“Recommended”—Project has an FY 2018 appropriation recommended for the FY 2018 Capital Budget.

\*Percent of students approved for Free and Reduced-priced Meals Program (FARMS) during the 2015–2016 school year.

\*\*Percent of English for Speakers of Other Languages (ESOL) during the 2015–2016 school year. High School students are served in regional ESOL centers.

\*\*\*Mobility Rate is the number of entries plus withdrawals during the 2015–2016 school year compared to total enrollment.

Notes: Native Hawaiian/Pacific Islander and American Indian/Alaskan Native categories total less than 1% and were therefore excluded from the table.

Due to federal and state guidelines, demographic characteristics of schools of less than or equal to 5.0% are reported as ≤ 5.0%.

## DOWNCOUNTY CONSORTIUM

### Facility Characteristics of Schools 2016–2017

Schools	Year Facility Opened	Year Reopened/ Revitalized	Total Square Footage	Site Size Acres	Adjacent Park	Relocatable Classrooms	County Programs	Home School Model
Montgomery Blair HS	1998		386,567	30.2	Yes			
Albert Einstein HS	1962	1997	276,462	26.67	Yes			
John F. Kennedy HS	1964	1999	280,048	29.1
