

SPECIAL EDUCATION CENTERS

SPECIAL EDUCATION CENTERS

Longview School

Longview School provides services to students aged 5–21 with severe to profound intellectual disabilities and multiple disabilities. Alternate Academic Learning Outcomes aligned with Curriculum 2.0 are utilized to provide students with skills in the areas of communication, mobility, self-help, functional academics, and transition services. Longview School is collocated with Spark Matsunaga Elementary School in the Northwest Cluster.

John L. Gildner Regional Institute for Children and Adolescents (RICA)

The John L. Gildner Regional Institute for Children and Adolescents (RICA), in collaboration with the Maryland State Department of Health and Mental Hygiene, provides appropriate educational and treatment services to students and their families through highly-structured intensive special education services with therapy integrated in a day and residential treatment facility. An interdisciplinary treatment team, comprised of school, clinical, residential, and related service providers, develops the student's total educational plan and monitors progress. Consulting psychiatrists, a full time pediatrician, and a school community health nurse also are on staff.

RICA offers fully accredited special education services that emphasize rigorous academic and vocational/occupational opportunities; day and residential treatment; and individual, group, and family therapy. The RICA program promotes acquisition of grade and age appropriate social and emotional skills and allows students to access the general education curriculum.

Rock Terrace School

Planning Study: On November 17, 2014, the Board of Education approved a Roundtable Discussion Group to explore the possible collocation of Rock Terrace School with Tilden Middle School on the Tilden Lane site. With an upcoming revitalization/expansion project, Tilden Middle School was identified because of its central location in the Walter Johnson Cluster, its large site size and accessibility to accommodate the two schools, and the long history of the Walter Johnson cluster serving special education students.

Board of Education Policy IOB, Education of Students with Disabilities, states that MCPS is committed to providing students with disabilities the opportunity to interact with non-disabled peers to the maximum extent possible. The Maryland State Department of Education (MSDE) has stated that state funding would be very difficult to acquire for stand-alone special education centers because students in these centers are not provided opportunities to receive instruction in the general education setting to the maximum extent appropriate. The collocation of special education centers with general education

schools, such as the Longview School at Matsunaga Elementary School, allows the school system to address the facility needs of the stand-alone special education centers while meeting the goal to provide special education students with opportunities to receive instruction in the general education environment to the maximum extent appropriate.

The Roundtable Discussion Group included parents and staff from Rock Terrace School and Tilden Middle School as well as a representative from the MCCPTA Special Education Committee and the Walter Johnson Cluster. Staff from the Department of Special Education Services, the Division of Long-range Planning, and Division of Construction also participated in the process. To support the activities, an architect was hired to develop concept plans for the possible collocation of the two schools. The activities of the Roundtable included the following:

- Identify opportunities for special education students to receive instruction in the general education environment to the maximum extent appropriate
- Discuss the facility and site implications
- Conduct site visits and engage in discussions with parents and staff at other collocated or soon to be collocated schools in the county and state.

The Roundtable Discussion Group met from December 2014 through February 2015 and submitted a report to the interim superintendent of schools in March 2015. Following input from the Roundtable Discussion Group and the community at large, the interim superintendent of schools recommended and the Board of Education approved the collocation of Rock Terrace School and Tilden Middle School on May 12, 2015.

Capital Project: A revitalization/expansion project is scheduled for this school with a completion date of September 2020. An FY 2018 appropriation was approved to begin the site work for this project. In order for this project to be completed on this schedule, county and state funding must be provided at the levels recommended in this CIP.

Tilden Middle School is currently located in the Woodward facility on Old Georgetown Road. Rather than revitalize/expand the Woodward facility for Rock Terrace School and Tilden Middle School, the current Tilden Holding Facility, located on Tilden Lane, will be revitalized/expanded to house both Rock Terrace School and Tilden Middle School.

Carl Sandburg Learning Center

Carl Sandburg Learning Center is a special education school that serves students with multiple disabilities in kindergarten through Grade 5, including intellectual disabilities, autism spectrum disorders, language disabilities, and emotional or other learning disabilities. Services are designed for elementary students who need a highly structured setting, small student-to-teacher ratio, and access to the MCPS Curriculum 2.0 or Alternate Learning Outcomes aligned with Curriculum 2.0. Modification of curriculum materials and instructional

SPECIAL EDUCATION CENTERS

strategies based on students' needs is the basis of all instruction. Emphasis is placed on the development of language and academic and social skills provided through an in-class transdisciplinary model of service delivery in which all staff members implement the recommendations of related service providers. Special emphasis is placed on meeting the sensory and motor needs of students in their classroom setting. To address behavioral goals, services may include a behavior management system, psychological consultation, and crisis intervention.

Capital Project: On November 17, 2011, the Board of Education approved the collocation of Carl Sandburg Learning Center on the Maryvale Elementary School campus when the revitalization/expansion project is complete. A revitalization/expansion project is scheduled for this school with a completion date of September 2020. An FY 2018 appropriation was approved to begin construction for this project. In order for this project to be completed on this schedule, county and state funding must be provided at the levels recommended in this CIP.

Stephen Knolls School

The Stephen Knolls School services students aged 5–21 with severe to profound intellectual disabilities and multiple disabilities. Alternate Learning Outcomes aligned with Curriculum 2.0 are utilized to provide students with skills in the areas of communication, mobility, self-help, functional academics, and transition.

CAPITAL PROJECTS

School	Project	Project Status*	Date of Completion
Rock Terrace School	Revitalization/expansion with collocation at Tilden MS	Approved	Sept. 2020
Carl Sandberg Learning Center	Revitalization/expansion with collocation at Maryvale ES	Approved	Sept. 2020

*Approved—Project has an FY 2017 or FY 2018 appropriation approved in the Amended FY 2017–2022 CIP.

*Programmed—Project has expenditures programmed in a future year of the CIP for planning and/or construction funds.

*Proposed—Project has facility planning funds recommended for a feasibility study.

*Recommended—Project has an FY 2019 appropriation recommended for planning or construction in the FY 2019–2024 CIP.
