SCHOOLS

Walt Whitman High School

Capital Project: Projections indicate that enrollment will exceed capacity by more than 200 seats throughout the six-year planning period. A classroom addition is approved with a completion date of September 2021. An FY 2021 appropriation was approved for construction to complete this project. Relocatable classrooms will be utilized until additional capacity can be added.

Thomas W. Pyle Middle School

Capital Project: Originally, an FY 2015 appropriation was approved in the Building Modifications and Program Improvements project for planning and construction of a third auxiliary gymnasium at the school to accommodate the high enrollment and meet the physical education facility requirements for middle schools. However, due to changes in the middle school physical education space requirements that added a second gymnasium to the program, the over-utilization at the school and the need for additional cafeteria space to accommodate the student enrollment, an addition project and core improvements was approved with a completion date of September 2020. An FY 2019 appropriation was approved to construct the project. Relocatable classrooms will be utilized until additional capacity can be added.

Bannockburn Elementary School

Capital Project: Previous projections indicated that enrollment would exceed capacity by 92 seats or more by the end of the six-year planning period. A capacity study was completed at this school in FY 2011 that studied the potential to add capacity. Current projections indicate enrollment will be slightly above the 92-seat threshold by the end of the six-year period; however, remains steady through the same time period. Therefore, enrollment will continue to be monitored and relocatable classrooms will be utilized, if needed.
