Charge

• In November 2016, the Superintendent authorized a boundary study to review options for the service area of the new RM Elementary School #5, and the associated changes to the cluster elementary schools.

• The scope of the boundary study is the service areas of Beall, College Gardens, Ritchie Park, and Twinbrook Elementary Schools.

• In November 18, 2010 the Board of Education stated in a Resolution that the Chinese Immersion Program would be reassigned when the new school opens to another elementary school in the RM Cluster.

• No middle or high school boundaries will change as a result of the boundary study.
Committee Process

- Identify important community issues – develop committee criteria

- Representatives evaluate boundary option using committee criteria

- PTA and other organizations represented on the boundary committee may submit position papers for committee report

- Feedback forms from community meetings
Board of Education Policy FAA – Long-range Educational Facilities Planning, lists four main factors to consider in developing school boundaries:

- Demographic characteristics of student population
- Geographic proximity of communities to schools
- Stability of school assignments over time
- Facility utilization
Richard Montgomery Cluster Elementary Enrollment Trends

• Since 2007 elementary schools in the Richard Montgomery cluster have increased by 739 students
• The only capacity added at the elementary level in this cluster was a renovation/expansion of College Gardens Elementary School in 2008
• Capacity utilization of all elementary schools in the cluster is 122%
• Relocatable classrooms are used to provide capacity in the interim
